Frightful Slaughter Among The Jewish People in Russia

UPRISINGS AMONG PEOPLE

Investigation Shows Almost Entire Jewish Quarters of the City Devastated and Their Inhabitants Either Killed, Wounded or Fled—Methods Employed in Butchery of Men, Women and Children Too Revolting For Description.

According to the latest dispatches that have come out of Russia Count Witte is making his force felt. His hand is on the helm and disorders are beginning to cease.

Emperor Nicholas has signed the manifesto granting practical authority to the Finns and it has been dispatched to Helsinki, where a grave revolution was threatened, and battleships had already reached that port with 10,000 troops to quell the insurrection.

Count Witte has practically settled the railroad strike by giving in completely to the strikers, with whom he had a conference. Dispatches are brief from the riot centers. An Odessa dispatch says:

"It is believed that the worst is now over. In several towns the entire Jewish quarter has been devastated and the inhabitants killed or wounded."

Wholesale Massacres.

A London newspaper's St. Petersburg correspondent estimates that in the leading provincial towns of Russia 1,000 persons have been killed and 10,000 seriously wounded in the last 24 hours. The revolutionary movement in Finland is unchecked the Finnish national guard opposing the advance of Russian troops and compelling them to retire.

Odessa, By Cable.—A dispatch from Kiseineff says:

"A horrible massacre has occurred here. Hundreds have been killed. All the hospitals, pharmacies and hotels are full of wounded and mutilated persons."

A telegram from Nicolaieff says:

"The whole town is in the hands of bandits who are devastating the Jewish houses and shops and beating Jews to death without the slightest hindrance."

The authorities here have similar news from other southern cities.

Odessa, By Cable.—The troops wreaked terrible vengeance on the residents of three houses from balconies of which shots were fired by unknown persons upon the soldiers. The latter immediately stormed the houses, and with unheard of barbarity, massacred all the inhabitants.

It is persistently asserted that the unknown persons who fired on the troops were disguised policemen who purposely provoked the troops.

The city is a dismal sight. The streets are filled with Cossacks patrols and flying detachments of the Red Cross, which follow the bands or murderous rioters. The firing has been

uninterrupted the whole day and still continues as this dispatch is filed. Many hundreds have been killed or wounded.

The Cossacks eagerly attack the student militia, which is courageously trying to stem the bands who are massacring and pillaging, principally in the Jewish quarter. The looters openly divide the goods, the Cossacks in many cases participating in the proceeds of the robberies.

The rector of the University has sent a telegram to Count Witte imploring him to immediately dismiss Governor Reinhardt, who is held responsible for the outbreak, as otherwise catastrophe is unavoidable. Count Witte's answer has not been received.

The city is in a dreadful state of panic. Even the telegraph offices were closed most of the day for the first time since they opened.

ARREST JUDGE AND CONSTABLE.

Charged With Killing Colored Woman Near New Orleans.

New Orleans, Special.—Judge J. W. Adams, city judge of the town of Kenner, in Jefferson parish, about ten miles above New Orleans, and John Ledoux, constable of his court, have been arrested by Sheriff Marrero, charged with the murder of a negro woman, Stella Stallwood, and are now locked up in the parish prison. On Sunday a week ago a shooting affray occurred in a negro bar-room in Kenner, in which Stella Stallwood, a negro woman standing just outside of the saloon, was instantly killed and four negroes severely, two of them fatally, wounded, one being the husband of the dead woman, Glasgow Stallwood. A coroner's jury was summoned to investigate the affair, but although the shooting was witnessed by a number of persons the jury contented itself with a verdict declaring that Stella Stallwood had come to her death from gunshot wounds, and making no suggestion as to who had inflicted these wounds. Sheriff Marrero then visited Kenner and reported the case with the result that the judge and constable of the town, charged with preserving the peace, are now in jail under the accusation of murder.

Secretary Taft at Panama.

Panama, By Cable.—Secretary of War Taft, accompanied by General Storey, ex-chief of artillery, retired; Colonel Black, Engineer Corps; Colonel Edwards, Chief of the Bureau of Insular Affairs and W. W. Michler, arrived here. Mr. Taft says that he comes to discuss a number of affairs with the Panamanians. He wishes to see what has been accomplished this year, so that he can compare it with last year's work, so that he can tell Congress where the money has gone. He will remain at Panama until the 9th.

Bank Examiner Discharged.

Washington, Special.—Comptroller the Currency removed from office Bank Examiner R. H. Mattern, of the Western Pennsylvania District, for failure to discover the conditions existing in the recently wrecked Enterprise National Bank, at Allegheny.

Mexican Ambassador Returns.

Mexico City, Special.—Ambassador Cassius, wife and seven children, with his physician, Dr. Albert, left here Saturday night for the United States via Laredo. Several stops along the route will be made and the ambassador will attend a banquet to be given in his honor at St. Louis. He is now fully recovered from his recent attack of illness.

Skull Fractured From Fall.

Wilmington, Special.—P. McCarron 25 years old, an itinerant plumber, said to be from Nashville, Tenn., fell from the northbound train out of Wilmington near Burgaw, Saturday night and suffered a fracture of the skull and a number of contusions about the head. He was brought to the hospital here and is in a dangerous condition though his condition showed improvement. Two brothers in Asheville have been notified of the accident, and are on their way to Wilmington to be with the injured man.

Four Shot at Negro Dance.

Birmingham, Ala., Special.—A special from Huntsville, Ala., says that four persons were shot, one being killed, at a negro dance at Shelsley, a negro village near Huntsville, early Saturday. San Ruffin, a drunken negro, opened fire on a crowd of dancers. A daughter of Peele Branch was killed instantly. Cliff Branch was wounded fatally and two others, a man and a woman, were shot and are expected to die. Ruffin escaped.

Died of Burns.

Dunn, N. C., Special.—The two year old daughter of Mrs. B. B. Jernigan died as the result of being seriously burned a few days ago. The accident was a sad one because the mother is seriously injured also. The little child was playing with matches and her clothing caught on fire. The mother, who was never able to extinguish the blaze, was seriously burned in her efforts to save the child.

Will Double Capacity.

Winston-Salem, Special.—Taylor Brothers, a well-known tobacco manufacturing firm of this city, has decided to double the capacity of this plant. They are arranging to build an addition to their present factory. The new building will be of brick, four stories high, and the same size of the old house. Work on the addition is to begin early next spring.

Whiskey Election at Goldsboro.

Goldsboro, Special.—An election will be held here November 14th to determine whether Goldsboro shall have saloons or prohibition. The town has prospered beyond expectation of the most sanguine without whiskey and rowdiness. In view of the present prosperous and peaceful condition of the town, there is a strong sentiment against saloons and it is believed that an overwhelming majority will be given against them in the approaching election.

Child Burned to Death.

Greensboro, Special.—It was learned that the four-year-old daughter of P. D. Simpson died Saturday night at her parents' home in northern Guilford from burns received Thursday night. She was playing near the fire-place when her clothing caught and her screams brought father and mother to her aid, but too late to save her life. Mr. Simpson is employed at the Farmer's Warehouse here.

TRIAL OF MUTINEERS BEGUN

Adams and Sawyer Charged With Murder On S-cottled Ship.

Wilmington, Special.—The trial of Arthur Adams and Robert Sawyer, two of the three negro seamen charged with mutiny and murder of Captain E. R. Rumill and four members of the crew of the schooner Harry A. Berwind, off this coast early in October, began in the Federal Court Saturday. A true bill was returned against Henry Scott, the third of the alleged mutineers, who was the principal witness against his shipmates, charging each of them with the murder of one man and with firing simultaneously at the third and throwing all their bodies overboard. He confessed to the killing of one negro seaman himself, but claimed that it was in self-defense, after the mutiny was over. The trial of Adams and Sawyer will be continued Monday and Scott will be placed on trial Tuesday, counsel having been assigned by the court.

North State Items.

Charters are granted the Snowbird Valley Railway, Cherokee county to start from Andrews, on the Southern Railway, and to run along Hickersons creek, Bear and Little Snowbird creeks, into Graham county, a distance of 15 miles, other extensions being permitted. W. B. Hamrick and others being stockholders, capital stock \$75,000; the Twin Tree Lumber Company, of Conway, Northampton county, capital stock \$5,000; Daniel Coleman, of Norfolk, Va., and others being the stockholders; the North Carolina Telephone Company, principal office Hurdle's Mills, Person county; \$100,000 authorized capital stock, D. F. Miller and others stockholders; the Wither Sherwood Shuttleblock Company, of Greensboro, M. B. Worth, W. B. Sherwood and others stockholders, capital stock \$20,000.

The Secretary of State has received from President Francis of the St. Louis Exposition, two superbly engraved diplomas, which set forth the fact that North Carolina won two of the grand gold medals at the exposition, one for building stone and the other for the best collective exhibit of semi-precious stones and gem minerals. The Secretary turned over the diplomas to the agricultural department which made the exhibit, that of semi-precious stones, having been a joint exhibit by the department and by a gentleman who is an owner of very valuable stones, which he kindly allowed to be used in this way.

The colored State fair had a larger attendance than ever before except when Booker Washington spoke there two years ago. There were 4,000 people on the grounds. E. J. Young, of Charlotte, is elected president; J. E. Hamlin, of Raleigh, being re-elected secretary. The football game was a great attraction and Shaw University defeated St. Augustine 5 to 0.

Governor Glenn has promised to go to Norfolk Thanksgiving day as the guest of the North Carolina Society there to see the big football game between teams from the University of Virginia and the University of North Carolina. The Governor is a football enthusiast, and is also devoted to baseball. He used to be a very clever amateur baseball player.

The second-floor dormitories at the Soldiers' Home are completed and all of the veterans possible are being moved into these from the cottages. It is found to be more expensive to maintain the cottages as wood is costly.

Five minor officials of the Westmoreland Coal Company were killed by an explosion when they entered the Hazel Kirke mine, at Hazel Kirke, Pa., to ascertain whether a fire started some weeks ago was out.

Two hundred natives were killed by Portuguese troops whom they ambushed in Portuguese, West Africa.

President Loubet was welcomed to Lisbon, Portugal.

Navy Unfit For Battle.

Washington, Special.—Rear Admiral Charles W. Rae, engineer-in-chief of the United States navy, in his annual report calls attention "to the critical condition of engineering in the United States navy" and points to the explosion on the gunboat Bennington in San Diego harbor, which, he says, most forcibly emphasizes the necessity of serious and immediate attention. The report says: "Were the country suddenly plunged into war the navy would find itself in no condition to win battles."

Current Happenings.

The Lake Mohonk Conference of Friends of the Indians and Other Dependent People opened at Lake Mohonk, N. Y., Rev. Dr. Lyman Abbott presiding.

The Federal Court in Chicago sustained the demurrer of the meat packers to the five indictments charging monopoly, but dismissed the demurrer to the five alleging conspiracy.

GIVE THANKS

Thursday, November 30th is the Day Set Apart

THE PROCLAMATION ISSUED

Reciting the Origin of the Custom Among the Early Settlers, the President Asks That The People Observe the Day by Thanksgiving For the Past and Prayer for the Future.

Washington, Special.—The President has issued his proclamation naming Thursday, November 30th next as a day for thanksgiving. The proclamation follows:

By the President of the United States of America, a Proclamation.

When, nearly three centuries ago, the first settlers came to the country which has now become this great republic, they found it not only hardships but terrible risk to their lives. In those grim years the custom grew of setting apart one day in each year for a special service of thanksgiving to the Almighty for preserving the people through the changing seasons. The custom has now become national and hallowed by immemorial usage. We live in easier and more plentiful times than our forefathers, the men who with rugged strength faced the rugged days, and yet the dangers to national life are quite as great now as at any previous time in our history. It is eminently fitting that once a year our people should set apart a day for praise and thanksgiving to the Giver of good, and, at the same time, that they express their thankfulness for the abundant mercies received, should manfully acknowledge their shortcomings and pledge themselves solemnly and in good faith to strive to overcome them.

During the past year we have been blessed with bountiful crops. Our business prosperity has been great. No other people has ever stood on as high a level of material well-being as ours now stands. We are not threatened by foes from without. The foes from whom we should pray to be delivered are our own passions, appetites and follies; and against these there is always need that we should war.

Therefore, I now set apart Thursday, the 30th day of this November, as a Day of Thanksgiving for the past and of prayer for the future, and on that day I ask that through out the land the people gather in their homes and places of worship, and in rendering thanks unto the Most High for manifold blessings of the past year, consecrate themselves to a life of cleanliness, honor and wisdom, so that this nation may do its allotted work on the earth in a manner worthy of those who founded it and of those who preserved it.

In witness thereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the City of Washington, this second day of November, in the year of our Lord one thousand nine hundred and five, and of the independence of the United States the one hundred and thirtieth.

(Seal) THEODORE ROOSEVELT.

By the President.

ELIHU ROOT,
Secretary of State.

News Notes.

The woman whose torso was found in a dress-suit case in Boston harbor and whose arms and legs were picked up in another case was identified by means of rings on the fingers as Miss Etchel Durrell, a chorus girl from the "Shepherd King" Company.

High Point Fire.

High Point, Special.—The Lindsay Chair Company's plant suffered a loss by fire of \$10,000 or more. A few minutes past 7 o'clock the alarm was sounded and when ten minutes later the fire was thought to have been put out and people were returning home, a second alarm was given and the flames were seen to leap upwards in great volumes. The fire originated in the engine room, where several boiler-makers were at work, the factory having been closed down on that account. The damage by water is the heaviest, the whole building, machinery, cabinet and engine rooms being flooded. The loss may probably exceed the figures given. The fire will not necessitate a shut down but a day or so of the plant, as the wheels will commence to revolve again next week.

State News in Brief.

W. J. Wilson, assistant ticket agent at Durham, was accidentally shot on Friday by his friend, Robert Christman. The two were on a trade for a pistol, neither knowing that it was loaded. Wilson was taken to the hospital and died immediately. Before dying he made a sworn statement completely exonerating Christman from all blame.

Fire Sunday morning destroyed the Nazareth Orphanage, located two miles from Raleigh. One boy jumped from the upper story and was killed by the fall. Another was fatally injured. The property destroyed was valued at \$25,000 with \$6,000 insurance.

At Wilmington on Friday Judge Purnell, of the federal court issued an order debaring lawyer Musselwhite, of Cumberland county, from practicing in the federal court. The cause of this action was based upon the fact that Musselwhite had taken some legal papers from the clerk's office without permission.

Charters are granted the Citizens Light and Power Company, at Lenoir, Caldwell county, \$25,000 capital stock W. P. Ivey and others stockholders; the Beaufort Land and Improvement Company, at Beaufort, capital stock \$125,000, W. A. Mace, C. D. Jones, Charles L. Abernathy, and Fred L. Merritt being among the stockholders; The Oxford Realty Company, with \$500,000 authorized capital stock, J. W. Bullock and others stockholders;

OUR SILK INDUSTRY

Distribution of Seeds by Agricultural Department.

Not a State in the South has made greater research into the industry and art of silk production as North Carolina, and for more than five years State Biologist Gerald McCarthy has been experimenting on a large scale with every variety, many of these having been imported from France, England, and China.

The work of Mr. McCarthy has been eminently successful, and he has made several valuable discoveries in his method of breeding and production, as well as of growing of suitable trees.

The State Department of Agriculture has made many distributions of mulberry trees, and last week Biologist McCarthy announced the last distribution in the following circular letter:

"The North Carolina Department of Agriculture will, beginning November 15th, distribute among the farmers of the State 20,000 seedling mulberry trees. This distribution is intended to encourage the growing of silk in North Carolina, but the trees will at the same time furnish shade and food for poultry and hogs. Every man in the State should have a mulberry grove. The trees should be planted 12x12 feet on dry soil and cared for like peach or plum trees."

"These trees will be sent by mail, post paid, in packages of 50 and 100. Not less than 50 nor more than 100 trees will be sent to one address. To cover cost of packing and mailing applicants must enclose 1 cent for each tree. Postage stamps accepted. This is probably the last distribution of mulberry trees that will be made by the department. Those who want them should apply at once. Those who have not tried silk growing should send for a copy of Bulletin 181."

Kaolin in Cleveland.

Shelby, Special.—In mining for monazite in the neighborhood of Double Shoals, 12 miles above Shelby, a fine quality of kaolin has been found in sufficient quantities to justify the establishment of a plant for getting out the same. Eight thousand dollars worth of machinery will be put in at an early day. As only natural gas is used for burning the finest gilsonite, the clay has to be shipped to East Liverpool, Ohio, that being the only place in this country where gas is found in sufficient quantities for the purpose. As oil has been found in small quantities on both sides of the Blue Ridge Mountains as far south as Rutherfordton, it is not improbable that we may have an "East Liverpool" within our own borders at no distant day. Mr. McMaster, of Virginia, who owns the mine, is exhibiting some pieces of very fine china which was made from this Cleveland county dirt.

LARGE OUTLAY

Sixteen Million Dollars More For Coast Defences

FOR RIVERS AND HARBORS

Chief of Engineers McKenzie's Report Makes Estimates, in Addition to \$28,693,434 Already Expended. For Construction of Sea Coast Fortification.

Washington, Special.—Sixteen million dollars will be necessary to complete the engineering work of fortifications of the sea coast of the United States under plans of the Endicott board, according to the report of Brigadier General Alexander McKenzie, chief of engineers. There has already been appropriated for this purpose \$28,693,434. Permanent projects at 31 different points have been adopted and most of them are well under way. These points include: Baltimore, Washington, Hampton Roads, entrance to Chesapeake Bay at Cape Henry, Cape Fear river, Charleston, Port Royal, Savannah, St. John's River, Key West, Tampa Bay, Pensacola, Mobile, New Orleans and Galveston.

The defense of the Great Lake and the St. Lawrence river is under consideration. The estimate for the completion of these fortifications does not contemplate anything more than the projects outlined by the Endicott board. Modern appliances and additional projects which may be adopted by the Taft board appointed last summer and the fortifications of the insular possessions may increase the estimates when additional work is approved by Congress. It is estimated that \$4,263,364 will be required to put into execution by the engineer department the schemes of the artillery and signal corps for control of the sea coast defenses.

The reconstruction of the works destroyed by the storm of 1900 at Galveston is nearly completed, but the barracks and quarters and other post buildings which must be located at Forts Travis and San Jacinto are unprotected, as well as range-finder stations and other engineer accessories. Work has been progressing on the fortifications for the defenses of Manila Bay and Subig Bay, Philippine Islands, and at the naval station at Guantanamo Bay, Cuba, and for the purchase of sites for fortifications in Hawaii.

Negotiations have been continued for the acquisition of a tract at Mobile, Ala., and another near Charleston, S. C. The total estimates for fortification works under the engineer department for the fiscal year 1907, amount to \$11,424,153, including \$1,433,953 for sea wall defenses at Galveston, Tex.

Defenses of insular possessions: Sea coast batteries, Manila, \$2,000,000; sea coast batteries, Subig Bay, Philippine Islands, \$500,000; harbor Hawaii, \$520,000; procurement of land for sites for defenses of the Hawaiian Islands, \$326,100.

Expenditures on river and harbor improvements in the United States reached \$22,383,623. This does not include \$2,265,073 under the Mississippi river commission. No estimates are made this year for river and harbor improvements save those provided for under continuing contracts. This amounts to \$17,456,801.

An estimate of \$2,600,000 for the Mississippi river commission is made. The estimates for the continuing of contracts include the following: Delaware river, New Jersey, and Pennsylvania, \$1,000,000; Savannah harbor, Ga., \$210,000; St. John's river, Florida, \$300,750; Hillsboro Bay, Florida, \$348,350; Black Warrior and Tombigbee rivers, Ala., \$903,466; Southwest Pass, Mississippi river, \$500,000; South Pass, Mississippi river, \$50,000; Bayou Plaquemine, Louisiana, \$100,000; Galveston harbor, Texas, \$250,000; Galveston ship channel, Texas, \$200,000; Cumberland river, Tenn., \$200,000; above Nashville, Tenn., \$200,000; Tennessee river, Chattanooga, Tenn., to Riverton, Ala., \$240,000.

Finns Get Self-Government.

St. Petersburg, By Cable.—The manifesto of Emperor Nicholas granting the demands of the Finns has been signed and dispatched to Helsinki. It convokes the Diet on December 20, abolishes the dictatorship, rescinds Governor General Bobrokoff's illegal enactments, annuls the manifesto of February 15th, 1899, which provided for common legislation in the empire, and all the laws since enacted. It announces that the extraordinary Diet now convoked is for the revision of the Diet's electoral basis.

Powerful Forces to Hold Down Finnish Capital.

Helsinki, Finland, By Cable.—Three Russian battleships, a cruiser and 10,000 troops have arrived here from Revel. The warships are anchored in the harbor. Batteries have been placed on two commanding hills outside the town and the cannon in the Seaborg fortress have been turned against the city, which also lies under the guns of the warships.

Negro Killed.

Elizabeth City, Special.—George C. Spence, colored, member of a section gang on the S. & C. Railway, was killed near Nicanor. Another member of the gang was badly injured. The gang had just finished the day's work. Spence and two other boarded a hand-car and were driving it at a rapid rate when the car jumped the track, hurling the men and the car into the ditch. Spence and one other were caught under the car. The third was hurled ten feet beyond. Spence was killed instantly and the other man was badly cut up. He will probably die.

Postoffice Robber Gets Five Years.

Wilmington, Special.—In the Federal court Jack Melvin, colored, charged with robbing the postoffice at Clarkston, was sentenced to five years in the Atlanta penitentiary, and Jim McLeod, convicted of breaking into the office at Old Hundred, was sentenced to seven years. McLeod is also believed to be implicated in the robbery of the postoffice at Spring Hill, Halifax county, as a government key from that office was found in his pocket.

A Dead Body Is Found.

Asheville, Special.—The sheriff's office here has received a message from Morganton, stating that a man who fills the description of John Fate, of Madison county, the murderer who broke jail here some time ago, has been found dead near that place. The message further stated that the death was believed to be from natural causes, and that the man had been buried, and it was requested that the body be exhumed for the purpose of identification.

DEMOCRATIC WHISKEY.

The Old Nick Williams Distilling Co. has been holding the boards in the Federal Court at Greensboro for several days on the charge of blockading whiskey.

The Raleigh Christian Advocate, commenting on the situation, says:

"Those who were in Raleigh during the last session of the Legislature will remember that a certain elegantly dressed, imposing looking man by the name of Glenn Williams, was the centre of interest, especially when temperance measure were before the legislators. Only those gentlemen who had the honor of being legislators, and doubtless a few others whose business it was to 'take care of the party,' know what pleas for protection were made by Mr. Williams. He protested that he was the only reputable whiskey distiller in the State, that the business had come down to him from Revolutionary ancestors, that he absolutely frowned down on all drunkenness and immorality, that no employee was allowed to drink on the premises, that the community from a moral standpoint was a model, that he was one of the party's true and tried, and that it would be an act of monumental cruelty to repeal the charter of the town of Williams and thus cause him to move his business to another place, and so on. Well, this man is now figuring in a very interesting case in the Federal Court at Greensboro. He is charged with defrauding the government by selling large quantities of liquor on which no tax had been paid—in other words, 'running the block.'

This same N. Glenn Williams was, if he isn't now, a member of the Democratic State Executive Committee. This is the firm that the News and Observer said manufactured the whiskey without a headache. The Observer went so far as to say that on one occasion when a barkeeper got religion the church members went with the bartender to his place of business to destroy his stock of whiskey, and while they were knocking the heads out of the barrels it was discovered that several barrels of the whiskey was 'Old Nick Williams' goods, whereupon the church member decided to save those barrels as it was such good whiskey in case of sickness!

The town of Williams was incorporated by a democratic legislature so Glenn Williams would not come under the ban of the Watts law and could continue to make democratic whiskey at the same old stand.

But now it seems that this democratic good whiskey has fallen from grace and the manufacturer is in the Federal Court charged with blockading and defrauding the government out of a large sum of money.

There are also two democratic magistrates near Raleigh charged with selling whiskey unlawfully. The News and Observer has had much to say about some republican blockaders, but it has not had a single editorial about its dear friend N. Glenn Williams and these two democratic magistrates defrauding the government in the whiskey business.

The defeat of the amendment in Maryland Tuesday sounded the death-knell to Gorman's political ambitions in that State. He wanted the amendment passed so he could disfranchise every white man in that State who opposed his machine. Mr. Gorman should have known, when he started the move for the amendment, that no sensible white man was going to vote to put himself in political bondage just to appease the political hunger of one man.

WHO'S MEAN?

Mr. N. Glenn Williams, who is now in the Federal Court at Greensboro charged with blockading whiskey, sent letters to members of the last legislature asking them to stand by him and protect his business by special legislation as he had stood by the democratic party and fought 'mean republicans' all his life.

It now seems that this same Williams has helped to beat the mean republican government out of a lot of tax on whiskey.

THE STAR SHOULD BE CONSISTENT.

The following is from the editorial columns of the Wilmington Star:

"The Keep Commission was appointed to nose around Washington to see if it could discover any rottenness or irregularities in the departments. The commission evidently thinks it was appointed to keep the public eye on the government scandals at the national capital. A Congressional committee should have been appointed for this work, as the Democrats urged at the last session."

Of course the Star thinks that a Congressional committee, composed mostly of democrats, should have been appointed, instead of the Keep Commission, to probe for scandals in the various departments of the government at Washington, but when the last legislature appointed their committees, composed entirely of democrats, to probe their scandals, the Star and other democratic papers in the State thought it was all right. The Republican members asked for representation on these committees but representation was denied them. Isn't it strange that some of these democratic papers can see but one side of a question? At least they try to keep the public from seeing but one side.

The People's Paper of Charlotte, commenting on the President's Southern tour says:

"While the President was at Little Rock, Ark., his body-guard consisted of twenty-four veterans, twelve Confederates and twelve Union veterans, and he was very proud of it."

And Bro. Sossaman might have added that they were proud of the President.

Ex-Gov. Aycock spoke in Baltimore for the Maryland-disfranchising amendment, and it was defeated Tuesday by 20,000 majority!

Wonder if the Republicans could not employ Aycock to speak for the Democratic ticket in this State next year?

The People's Paper, of Charlotte, says there are twenty-eight different kinds of democrats in America.

Yes, there are twenty-eight in fine, till leap year gives them twenty-nine.

Southern Democracy is anxious to have a man on the national ticket next time. Well, suppose they were allowed that privilege, who would be their candidate? Vardaman?

VAGABOND DEMOCRACY.

Its Lonesome Wanderings Since the Civil War.

"The Democratic party once declared that it adored the Fourteenth and Fifteenth Amendments; its attitude is different now, says Tom Watson in his Magazine. 'It once declared in favor of greenback currency; then it retired to the middle-ground of free silver; then it flew by telegraph to the single gold standard.'

"Before the war it stood for free trade; after the war for tariff reform; then for tariff for revenue only; then for tariff for revenue with incidental protection; then for sugar bounties; then for an act whose schedules were dictated by the Trusts."

"It once declared against the national banking system, as Jefferson and Jackson always did; it has since rechartered the system and given it, at the request of a Republican money-king, a new feed of bonds."

"The Democratic party once declared against the modern commercialism which grinds the seed-corn by sacrificing little children for dividends; it now says nothing of child labor; and in South Carolina, where the reformers who get 'reform inside the party' prevail mightily, child slavery is seen in all its glory."

"It once cried out against imperialism, the owning a colonial empire in the Far East where slavery and polygamy and Sultan establishments cuddle down under the Stars and Stripes; imperialism which stretches and weakens our frontier, which necessitates larger navies, which necessitate larger armies, and which will drag us into the same fatal course which has been the ruin of every other republic!"

"The Democratic party once declared against all this, but when Mr. Bryan grew tired of camp-life and the Colonel's uniform, 'becoming weary of a war in which he was winning no credit, he rushed to Washington, made a personal appeal to Democratic Senators, and thus secured for the Spanish Treaty the necessary votes which gave us imperialism.'"—Tom Watson's Magazine.

We do not see what grounds one town has for claiming to have a better fair than other, when the same crowd of showmen and fakirs appear to attend them all.—Durham Herald.

On taking his leave, Col. Bryan said that "no man has reason to fear the triumph of Democracy." Considered from its present split up, disorganized condition, we believe it is a pretty safe proposition to make, that there is nothing to fear, Col.—Yellow Jacket.

The President is pleasing the South. He is talking the sort of politics to which the people are not accustomed and showing them it is possible for a President to remember that he is the head of the nation and not of some particular part.—Pittsburg Dispatch.

The Durham Sun contends that Raleigh people eat so many Chatham county rabbits in the fall and winter that it causes them to have a hopping motion when they walk. Just read the Dispensary statistics and you will find what causes Raleigh people to have an impediment in walking.—Raleigh Enterprise.

As an old farmer friend remarks, a home grown, hard spanked, barefooted and hardstressed country boy makes a much better fighter in the battles of life than does the pampered, high collared, crease-trousered youth of our cities and towns, whose clothes have always been dusted with a whisk broom instead of a shingle.—People's Paper.

The message sent to President Roosevelt while en route home on the Gulf of Mexico from the navy yards at Washington demonstrates beyond question the practical service to which the new invention of wireless telegraphy may be put. Now if the flying machine project can be put through man's achievements will seem about complete, since he will be master in the air and upon land and water, with power to communicate between either of the elements.—Union Republican.

We repeat, the talk of nominating Roosevelt by the Democrats is silly. The Democratic party in the nation is already on the rocks, and such fanaticism would complete the wreck.—Morning Post.

The Democracy has tried candidates from two of its leading wings and doubtless it thinks it could do better with a Republican for a candidate. But since Roosevelt says he will not run again it might be wise for the Democracy to choose some other good Republican—say, the one that the next Republican national convention picks out. It always picks out a good one, and usually a winner.—Union Republican.

If Gov. Blanchard were to come down this way and talk as he did to President Roosevelt the other day in New Orleans he would be read out of the party. Hear him!

"You are now standing for things and measures that we are with you on, as to which you have our good wishes, and relative to which we, the democrats of Louisiana, and I believe of the South generally, wish to see you have the support of the democratic vote in the two houses of Congress this winter. With us of the South the day of mere political prejudice has passed away. There is not much of this feeling lingering, and what there is will soon disappear."—Charlotte People's Paper.

Ruffy Gives \$2,000 Bond. Salisbury, N. C., Nov. 6.—H. E. Ruffy was this morning released on \$2,000 bail. He killed Engineer Connel in Spencer Friday night.

Sure To Be Relegated.

The Rev. William Josiah Bailey, of the Biblical Recorder, says that the reception given the President is no sign that the people would vote for him. Well, he is right, in part, for there are a lot of hidebound sectional haters who would not vote for St. Paul were he to return to this world and stand for election on the Republican ticket, but the great masses, Mr. Bailey, are getting their eyes open, and that class of politicians are going to be relegated to the rear. The people of North Carolina are tired being led by the nose and voting against their best interests; they are tired of campaigns of hate and abuse. Life is too short for that kind of living.—Davie Record.

At It Again.

Ex Gov. Aycock has been up in Maryland telling them how to vote on a constitutional amendment, and we notice from our Democratic exchanges that he told them that no white man has been disfranchised in North Carolina. Now we don't like to say that Mr. Aycock is a falsifier, but he was not telling the truth when he said no white man had been disfranchised in North Carolina.

It was estimated that at least twenty thousand white men were disfranchised by the operation of the amendment last year. A good many lost their votes in Davie and all over North Carolina. Yet, Mr. Aycock says, None. One of the Democratic Senators of Maryland, Mr. Rayner, is against it because it will disfranchise thousands of white men in Maryland. In Virginia, some counties half of the white men were disfranchised, and yet these pure, upright, Christian Democratic gentlemen told the white people not one would lose his vote. How long will such deception be practiced, and how long will the poor white man be misled and deceived? How long?—Davie Record.

The Whiskey Question—More Bungling Legislation.

Among the many special prohibition statutes is one applying to Cumberland county, which makes the possession of more than two gallons of liquor prima facie evidence that the possessor of so much swopap is engaged in the illegal sale thereof. This is fairly liberal, much more so than the Union county law, which restricts one to a quart, for certainly the most bibulously-inclined should be satisfied with two gallons at a time. In Cumberland the law provides that in the case of illegal liquor selling the informer may have one-half the fine. One Evelyn bought a half pint of liquor from one Maulsby, and then reported Maulsby for retailing. Maulsby was convicted and fined \$100. Evelyn demanded half the fine. The Judge who tried the case refused to allow Evelyn a penny on the ground that under the constitution the fine belonged to the school fund, the special statute to the contrary notwithstanding. Evelyn appealed. It's a pity there isn't some way to get Evelyn on the chain gang, for a man who will help another violate the law by buying whiskey from him illegally and then report him purely for a monetary consideration is worse than the first offender.

Later.—A Judge of the Superior Court held that the statute giving the informer half the fine was unconstitutional, and the Supreme Court has affirmed his decision.—Statesville Landmark.

Sweets Not to the Sweet.

They were newly married and on a honeymoon trip. They put up at a skyscraper hotel. The bridegroom, in a fit of indisposition, and the bride said she would slip out and do a little shopping. In due time she returned and tripped blithely up to her room, a little awed by the number of doors that looked all alike. But she was sure of her own and tapped gently on the panel.

"I'm back, honey; let me in," she whispered.

No answer. "Honey, honey!" she called again, rapping louder. Still no answer. "Honey, honey, it's Mabel. Let me in!"

There was silence for several seconds; then a man's voice, cold and full of dignity, came from the other side of the door: "Madam, this is not a bee hive; it's a bathroom."—Exchange.

Your Life Current.

The power that gives you life and motion is the nerve force, or nerve fluid, located in the nerve-cells of the brain, and sent out through the nerves to the various organs.

If you are tired, nervous, irritable, cannot sleep; have headache, feel stuffy, dull and melancholy, or have neuralgia, rheumatism, backache, periodical pains, indigestion, dyspepsia, stomach trouble, or the kidneys and liver are inactive, your life-current is weak.

Power-producing fuel is needed; something to increase nerve energy—strengthen the nerves.

Dr. Miles' Restorative Nerve is the fuel you need. It feeds the nerves, produces nerve force, and restores vitality.

"When I began taking Dr. Miles' Restorative Nerve and Anti-Pain Pills I was confined to my bed. I had severe nervous spells, the result of two years illness with malaria. I gradually grew so weak that I was unable to sit up. The spells would commence with cold chills, and I would become weak and almost helpless. My circulation was poor. I had doctored right along but grew weaker and weaker. The Nerve seemed to strengthen me right away and my circulation was better. I have taken in all seven bottles of the Nerve, and I am entirely well."

BOSS E. WEAVER, Stuart, Ia. Dr. Miles' Nerve is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

MUTINEERS OF THE BERWIND CONVICTED.

Motion in Arrest of Judgment Made but They are to Be Sentenced to Death To-day Probably—One Negro Sailor to Be Tried.

Wilmington, N. C., Nov. 7.—Without a quiver of a muscle or the slightest manifestation of any concern Arthur Adams and Robert Sawyer, the two young negro men of the schooner Harry Berwind, listened to the verdict of the jury this afternoon condemning them to die for the murder of the schooner's officers.

The verdict was returned at 4:15 o'clock.

The defendants' attorney, George L. Peschau, moved for an arrest of judgment. The public generally approved the verdict.

Henry Scott, the third alleged negro murderer, will be placed on trial tomorrow.

He is believed to be the arch conspirator, and has no sympathizers here.

MAN'S UNREASONABLENESS

is often as great as woman's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five [5] physicians failed to relieve her. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

WHAT OF OUR PUBLIC SCHOOLS?

The Outlook is Not Encouraging—Good Teachers Cannot Be Secured at Present Prices—What Will Become of Our Boys After 1908?

The present outlook for the public schools of North Carolina is anything but encouraging. Teachers of experience and necessary qualifications in every part of the State are leaving the school rooms, and how could a sane man expect anything else when an ordinary day laborer who never spent a dollar for an education or a day in school can command as much pay for his services as the man who has spent years in securing an education at considerable cost? Such teachers are now offered the magnificent (?) sum of \$25.00 to \$29.00 per month for four months in the year to teach our public schools! Before they can avail themselves the privilege of accepting these fancy (?) prices they must attend the county institute each year. Out of the above salaries they are expected to board themselves and in some instances to pay for the fuel that heats the school-houses. At this rate teachers will soon be required to pay for the privilege of teaching. All this in the face of the fact that the cost of living is much higher today than it was eight or ten years ago. A salary of \$45 per month today means no more than \$35 ten years ago. Then today to ask teachers to work for less than they did then is unjust and acting in bad faith.

The voters of North Carolina at the next election should rise up as a man and elect a legislature that will remedy this evil at all hazards, and if it fails to do so after it gets to Raleigh the people ought to march to the capitol in a Coxy's army and drive every member out as the Master did the money changers from God's house. They can always find money to supply the demands of the higher institutions of learning, but the public schools—the only hope of the masses—must be contented with the crumbs that fall from the tables of other institutions. Every session increases the appropriations, regular and special, to the higher institutions, and to the other departments of government, but when the poor children of the State knock at the door of the legislature they are turned away with the widow's mite. This shameful and outrageous conduct should no longer be tolerated. For once the masses should rise in their might and demand of the next legislature that the public schools be first provided for and that all other legislation follow, and the man or party that refuses to take this course should be hurled from power.

Lawrence Lee, col., was crushed to death in a cotton seed oil mill at Charlotte Monday.

Mr. J. M. Pace, the well-known horse dealer of Raleigh, died Monday night of acute indigestion.

The Western North Carolina Conference of the M. E. Church, South, is in session in Greensboro this week.

The Charlotte Observer has bought the Greenville (S. C.) News. The News will continue to be published at Greenville.

Two deputy sheriffs of Alamance county brought two convicts to the penitentiary Tuesday. One of them, Ed Watts, a negro, is not a stranger at the "pen," this being the sixth time he has been sent up.

Thos. W. Dewey, the defaulting cashier of the Farmers and Merchants Bank of New Bern, entered the penitentiary Tuesday to serve his term of six years for stealing over \$100,000.

The Revenue Department sold about 700 gallons of whiskey, a mule and a gun at public auction in Raleigh Monday. It was goods that had been seized. Three barrels were found to contain nothing but water.

The portrait of the late Thomas Settle, once an Associate Justice of the Supreme Court of this State, was presented to the Supreme Court Tuesday morning. Judge W. P. Bynum, of Greensboro, made the presentation.

Gov. Glenn made an order for a special term of criminal court to be held in Warren county for the trial of the two negroes, Hicks and Gorrill, for the murder of W. C. King, near Littleton, Saturday night.

The sheriff of Swain county has brought to the State penitentiary one of the youngest convicts on record in this State. He is a negro boy 11 years old, and was sent up for three years for killing a white boy at Bryson City.

W. M. Anthony, a negro, who was driving a wagon at Freeman's mill, near Greensboro, was found dead Monday morning. The man had strangled to death by falling out of his wagon and having his neck caught between the wagon-brake and the wheel.

Gov. Glenn Monday fixed December 2d as the date for the hanging of Preston Daniel, colored, in Martin county, for the murder of William Eborn, colored. Daniel was convicted at the August term of Martin court and appealed, the Supreme Court having recently affirmed the judgment of the trial judge.

The daily papers state that the people of Spencer, N. C., are considerably stirred up over the appointment of Mr. J. D. Dorsett as postmaster at that place, who was named for the position by Congressman Blackburn over the protest of the Rowan county republicans. They say they will appeal to Chairman Rollins.

Prisoners Brought to Raleigh to Avoid Lynching.

The Sheriff of Warren County brought two negroes, Garfield Hicks and Burton Garrett to Raleigh Monday and placed them in Wake county jail for safe keeping. The prisoners were charged with the killing of W. C. King, a white man, near Littleton, Saturday night. They cut King's throat because he would not let them pass his buggy in the road.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased. Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a Home of Swamp-Root pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name; Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

M'CLELLAN CARRIES NEW YORK.

MARYLAND AMENDMENT IS SNOOWED UNDER.

WEAVER WINS IN PHILADELPHIA

Democrats Elect Governor in Ohio—Republicans Carry New Jersey and Massachusetts—Democratic Majority in Virginia Reduced.

The result of the vote in several States Tuesday, in many instances, is still in doubt. The latest returns indicate that McClellan, the Tammany candidate, has been elected Mayor of New York city by a small majority over Hearst (municipal ownership) and Ivins (Republican). It also appears that Jerome (Independent) has been elected over Osborn (democrat) for district attorney, while the Hearst faction gets the aldermen.

Maryland Amendment Defeated. The latest returns from Maryland indicate the defeat of Gorman and the democratic organization. The constitutional amendment is defeated by at least 20,000 majority, and it appears that the republicans will have a majority in the legislature.

Democrats Elect Governor in Ohio. While the returns from Ohio are meagre it appears that Patterson, democrat, has defeated Herrick, republican, for the governorship, and Tom L. Johnson was elected mayor of Cleveland by a good majority.

Weaver Wins in Philadelphia. In Philadelphia the city party, the reform wing of the Republican party, has won by at least 50,000 majority, which means that Weaver is again elected mayor.

Democratic Majority Reduced in Virginia. The Republicans cut down the majority in Virginia Tuesday to about 20,000 majority, which was a great gain for the Republicans. The negroes everywhere refrained from voting almost entirely.

New Jersey, Rhode Island and Massachusetts went Republican by large majorities, electing their governors, state officers and most of the county officers.

In Chicago the Republicans made a clean sweep, electing all their candidates but one man, and he was a trustee of the sanitary department.

The National Magazine for November.

One hundred contributors of text and picture make the November National the mostly richly varied and picturesque report of the current life of America in the whole field of monthly periodicals. Nor does the National treat American life alone. Yone Noguchi's delightfully intimate "With Rossetti in London" and Poulton Bigelow's "The First Lady of China" are papers that strike the note of universal interest. Joe Mitchell Chapple presents sixteen pages of fresh gossip, lavishly illustrated, about "Affairs at Washington." Frank Putnam discusses insurance revelations under the suggestive heading, "Is Thieving a Safe and Genteel Profession?" Hamilton Wright tells the complete story, with illustrations, of national irrigation works down to date. Farm life in our middle West, in the Philippines, in Manitoba and in our farther West are treated with pen and camera. Three-score helpful suggestions for home comfort and home happiness make up the unique Home department. The National unites the charm of homely, common-sense simplicity, with the racy flavor of wild fruit. It does new things in new ways.

The December Designer. The joyous spirit of Christmas strikes the keynote for stories, verse and several of the miscellaneous articles in The Designer for December, among the latter being "Deutsch Spielwaren for Christmas," by Julia Darrow Cowles, who describes the interesting toys made for American youngsters by the little people of Germany; and "Holiday Sweetness," by Francis Peck, instructing how to make the most delightful dainties. "The Rise and Fall of the Christmas Tree" tells in pictures what the well-known fairy tale does in prose. "Gran'ma Vosburg's Christmas," by Myra Emmons, is an excellent holiday story excellently illustrated, and "The Admission Ticket," by Zella Walters, is another bit of fiction which will please the children, as will also Dollies of an Unusual Kind," by Eleanor Marchant, and "A Search for Santa Claus," by Bertha Bush, the latter giving them a chance to display their talents in the dramatic and musical line. "Points on Dressmaking" gives directions for pressing tailored garments, and the Millinery Lesson presents an effective hat of the new "mushroom" shape.

Fancy Cookery for Christmas Gifts.

What would Christmas be without the traditional dinner with the good old-fashioned plum pudding and the numerous other seasonal dainties? But something new in this line is the practice coming into favor, of including various forms of cookery among one's Christmas gifts. In the December Delineator there is a suggestive chapter in "The Making of a Housewife," by Isabel Gordon Curtis, giving many useful hints to this purpose. "Suggestions for a Child's Christmas Party," and "Various Plum Puddings and Harmonious Sauces," and "Quaint Little Cakes for Holiday Occasions," prove to be useful, as well as something new to add to one's menus, and "Home-Made Holiday Beverages" and "Table Decorations for Children's Parties" close this very valuable department of the magazine.

THE "DODGING PERIOD"

of a woman's life, is the name often given to the "change of life." Your menses come at longer intervals, and grow scantier until they stop. Some women stop suddenly. The entire change lasts three or four years, and is the cause of much pain and discomfort, which can, however, be cured, by taking

WINE OF CARDUI

Woman's Refuge in Distress.

It quickly relieves the pain, nervousness, irritability, miserableness, forgetfulness, fainting, dizziness, hot and cold flashes, weakness, tired feeling, etc. Cardui will bring you safely through this "dodging period," and build up your strength for the rest of your life. Try it. At all druggists, in \$1.00 bottles.

WRITE US A LETTER

Put aside all timidity and write us freely and frankly, in strictest confidence, telling us all your symptoms and troubles. We will send free advice (in plain, sealed envelope), how to cure them. Address: Ladies' Advisory Dept., The Chattanooga Medicine Co., Chattanooga, Tenn.

"EVERYTHING BUT DEATH"

I suffered," writes Virginia Robson, of Easton, Md., "until I took Cardui, which cured me so quickly it surprised my doctor, who didn't know I was taking it. I wish I had known of Cardui earlier in life."

Might Go Further and Fare Worse. A blushing maiden of the backwoods had confided to her "naw" that a certain wooer of the name of Hank had "popped" to her, and that she had agreed to "hitch up" with him, whereupon her "naw" had knocked the ashes from her pipe against the chimney jamb and said: "Hank ain't great to look at, Jinny, but when a man is the rifle shot he is, an' when he owns two o' the best bull pups in this county, an' kin lick any man of his size with one hand tied behind him, an' kin jump higher an' run faster nor any chap in these parts—when he's got an' kin do all that, a gal might look further an' do wuss than to splice up with him. I'm right glad you ain't throwin' yourself away on a poverty-struck nobody, honey."—Judge.

New England Mutual Life Insurance Company.

Chartered 1835. Boston, Mass. Assets About \$40,000,000

In reply to a request for Campaign Contributions the Vice-President of the Company replied as follows:

I cannot advise any subscription by the Company to the campaign fund for any purpose. The money held by the Insurance Company in trust for its policy holders cannot be used for political, educational or religious purposes, and any vote by the directors authorizing a subscription would be beyond their authority, and for any money paid under such vote, the directors would be personally liable, and at the suit of any policy-holder the Court would require them to reimburse the Company.

Boston, Oct. 5, 1896.

This is not only good sense, and therefore good law and equity, but it is plain, everyday common honesty—a quality which seems conspicuously to have been lacking in the management of the other Companies.

Farming For PROFIT

There is nothing too good for the Farmer; there is nothing too good for the Farm. Good bams, good houses, good wells, good fences, good stock, all on good land, under good management assure good profits. The good applies throughout. It must apply throughout, or it will not apply to profits.

Nowhere is discrimination more necessary than in the selection of fences. The farm must be fenced. Hence, select the best fence, the ELLWOOD FENCE.

The Ellwood is built like a bridge—braced, supported, tied; no stronger or more substantial structure possible. Ellwood fences will hold your hogs, cattle, horses, and poultry. Ellwood Fence has always been popular. It answers all purposes and never disappoints.

We have Ellwood Fences for sale, and at prices that will suit you. Come and see us—we have a bargain for you.

Why I am a Policy-Holder in the National Life Insurance Company

Montpelier, Vermont.

- BECAUSE:
1. It is OLD, STRONG, LIBERAL, UP-TO-DATE and PROGRESSIVE.
 2. It is PURELY MUTUAL—ALL of its profits are POLICY-HOLDERS.
 3. It is just, for it invests its assets where it expects to do business because
- It has nearly \$200,000 invested in North Carolina securities. "Why do I work for the National Life?" It is a GOOD COMPANY for agents; it is liberal with its agents. Its contracts are the simplest, its applications the shortest and its policies the most liberal, easiest to explain and easiest to sell. Do you want one of these policies or do you want to sell a policy that is worth ONE HUNDRED CENTS ON THE DOLLAR? Call on or address,

Young Fool and the Old.
There's no fool like a young fool
When fireworks are exploded.
Behold them all, the victims small,
With hands and feet all burned.
Behold the lame and killed and maimed,
Their needless sufferings.
There's no fool like the Old Fool
Who gives a child such toys.
There's no fool like a young fool
In glorious July.
To fire a bomb and lose a thumb
And tear away an eye.
To touch a light to dynamite
And scatter death and noise.
There's no fool like the Old Fool
Who gives a child such toys.
There's no fool like a young fool
To make the Fourth a crime.
When every nurse and every nurse
Is working overtime.
When East and West and North and South
The hats are pulled down.
There's no fool like the Old Fool
Who thinks a child should know.
There's no fool like the young fool
Who smells the powder smoke.
But the awful fact that marks the Day
Has ceased to be a joke.
Yet Satan tempts the Old Fool
To chuckle over his breath
And put among the heedless young
The instruments of death.

A TRULY IDEAL WIFE

HER HUSBAND'S BEST HELPER
Vigorous Health Is the Great Source of
the Power to Inspire and Encourage
—All Women Should Seek It.

One of the most noted, successful and
richest men of this century, in a recent
article, has said, "Whatever I am and
whatever success I have attained in
this world I owe all to my wife. From
the day I first knew her she has been
an inspiration, and the greatest help-
mate of my life."

Mrs. Bessie Ansley

To be such a successful wife, to re-
tain the love and admiration of her
husband, to inspire him to make the
most of himself, should be a woman's
constant study.

If a woman finds that her energies
are flagging, that she gets easily tired,
dark shadows appear under her eyes,
she has backache, headaches, bearing-
down pains, nervousness, whites, irregu-
larities or the blues, she should start
at once to build up her system by a
tonic with specific powers, such as
Lydia E. Pinkham's Vegetable Compound.

Following we publish by request a
letter from a young wife:

Dear Mrs. Pinkham: My child was born I have suf-
fered, as I hope few women ever have, with in-
flammation, female weakness, bearing-down
pains, backache and wretched headaches. It
affected my stomach so I could not enjoy my
meals, and half my time was spent in bed.
"Lydia E. Pinkham's Vegetable Compound
made me well woman, and I feel so grateful
that I am glad to write and tell you of my
recovery. It brought me health, new life
and vitality."—Mrs. Bessie Ansley,
611 South 10th Street, Tacoma, Wash.

What Lydia E. Pinkham's Vegetable
Compound did for Mrs. Ansley it will
do for every sick and ailing woman.
If you have symptoms you don't un-
derstand write to Mrs. Pinkham, at
Lynn, Mass. Her advice is free and
always helpful.

Diagnosed Her Case.
A famous American physician was
summoned to the bedside of an elderly
grande dame of distinguished name
and many millions and who is one of
the leaders of American society. The
physician examined her carefully.
Then he said:

"You must get up every morning at
6 o'clock. Take for breakfast a cup
of weak tea and two pieces of dry
toast. From 9 to 11 exercise, either
walking or sweeping or dusting. At
noon lunch on a slice of cold meat,
filtered, iced water, and cold bread.
Don't sleep in the afternoon; exer-
cise again. For dinner take nothing
but a little meat, a vegetable and
toast. No sweets, no wines, no social
dissipation of any kind."

The eyes of the grande dame flash-
ed with fire, as she said:
"But, doctor, do you comprehend my
position? Do you know who I am?"

"Perfectly, madam," answered the
physician. "You are an old woman
with a sour stomach."

Clever Work of Detective.
In examining a jeweler's window in
Oxford street, London, which had
been broken to permit of the extrac-
tion of nine watches, a police sergeant
noticed a little blood on the glass.
Later on in Soho he observed a man
with a cut finger, so he arrested him
and found the stolen watches in his
pocket.

When the wise guy fails he con-
siders the man who succeeds a lucky
fool.

OLD FASHIONED FARE:
Hot Biscuits, Griddle Cakes, Pies and
Puddings.

The food that made the fathers
strong is sometimes unfit for the chil-
dren under the new conditions that our
changing civilization is constantly
bringing in. One of Mr. Bryan's neigh-
bors in the great State of Nebraska
writes:

"I was raised in the South, where
hot biscuits, griddle cakes, pies and
puddings are eaten at almost every
meal, and by the time I located in Ne-
braska I found myself a sufferer from
indigestion and its attendant ill-
nesses and pains after meals, an almost
constant headache, dull, heavy sleepi-
ness by day and sleeplessness at night,
loss of flesh, impaired memory, etc., etc.
"I was rapidly becoming incapacitated
for business when a valued friend
suggested a change in my diet, the
abandonment of heavy, rich stuff and
the use of Grape-Nuts food. I fol-
lowed the good advice and shall always
be thankful that I did so.

"Whenever may be the experience
of others, the beneficial effects of the
change were apparent in my case al-
most immediately. My stomach, which
had rejected other food for so long, took
to Grape-Nuts most kindly; in a day
or two my headache was gone, I began
to sleep healthfully and before a week
was out the scales showed that my lost
weight was coming back. My memory
was restored with the renewed vigor
that I felt in body and mind. For three
years now Grape-Nuts food has kept me
in prime condition, and I propose it
shall for the rest of my days.

"And, by the way, my 2½ year old
baby is fond of Grape-Nuts as I am,
always insists on having it. It keeps
her as healthy and hearty as they make
them." Name given by Postum Co.,
Battle Creek, Mich. There's a reason.

TEXTILE NEWS OF INTEREST

Notes of Southern Cotton Mills and
Other Manufacturing Enterprises.

Denison, Texas. The Denison Cot-
ton Mill Co., will start operations at
an early date, making 8s to 14s 2 ply
yarn in skeins. The capital stock is
\$150,000; W. B. Munson is president.
W. R. Munson, treasurer, T. L. Clark,
superintendent. Plant is equipped
with 8,000 ring and 4,000 twister spin-
dles and operated by steam. This
plant formerly known as the Ameri-
can Spinning Co., will soon install
considerable new machinery in the
mill.

Walterboro, S. C. The town of
Walterboro, S. C., is to have a new
cotton mill with a capital of \$100,000.
The Walterboro Cotton Mills is the
name of the new corporation. The
incorporators are: John F. Lucas, of
Walterboro; Julian Mitchell, Jr., and
Walter Pringle of Charleston.

Columbia, S. C. The Capital City
mills, Richland cotton mills and Gran-
by cotton mills held their stockholders
meetings Oct. 19. Since their reorgani-
zation some time ago, Mr. Lewis
W. Parker has been manager of the
concerns, and during the short time a
very showing has been made. Mr.
Parker was re-elected president of the
three mills.

Greensboro, N. C. Two hundred ad-
ditional looms are to be installed in
the White Oak Cotton Mills at once,
making the total in operation 800.
When the full capacity is reached
there will be three thousand. The
Pomona Cotton Company has awarded
contracts for thirty thousand more
looms to have from four to nine
rooms each. The engine, boilers and
part of the machinery for the mill is
expected next month.

Waxahatche, Texas. At the an-
nual meeting of the directors of the
Waxahatche Mills Waxahatche, Tex.,
held recently a dividend of 10 per cent,
payable January 1st, 1906, was de-
clared and instructions were issued
for the enlargement of the plant as
soon as the directors consider it nec-
essary. The mill is running 5,000 spin-
dles and 150 looms on duck and
towels.

Graham, N. C. Incorporation pa-
pers have been issued at Raleigh, N. C.,
for the Leota Cotton Mills Company,
of this place. The capital stock being
\$125,000 and the purpose to establish
a cotton manufacturing plant, details
of which are now under consideration.
James V. Pomeroy, William W. White
and J. H. White, of Graham are the
incorporators.

Rome, Ga. The Anchor Mills have
purchased 20 acres of land as a site
for its new buildings, and will begin
construction work soon. The com-
pany has decided to expend \$100,000,
and install 700,000 spindles; present
equipment 5,700 spindles and 70 looms.

Fayetteville, Tenn. A company has
been organized to manufacture cotton
goods at Fayetteville, Tenn. The
company—The Fayetteville Mill Com-
pany—has a capital stock of \$110,000.
The incorporators are H. K. Holman,
A. M. McLaughlin, J. H. Rees, J. H.
A. M. McLaughlin, J. H. Rees, J. H.
Harms and C. T. Harms.

Wilson, N. C. The Wilson Cotton
Mills have declared a dividend of 7 per
cent on \$25,000 worth of preferred
stock and 8 per cent on \$75,000 common
stock. This company operates 6,080
ring spindles on the manufacture of
warps and yarns.

Albemarle, N. C. The Eldred Mfg.
Co., Albemarle, N. C., contemplates
doubling the capacity of their mills
and installing additional looms.

Huntsville, Ala. The Merrimack
Manufacturing Co., of Huntsville,
Ala., it is reported will soon begin
the erection of a third mill in Hunts-
ville. The original plans of the com-
pany provide for a series of eight
mills and a blackery and the com-
pany bought enough land for that
purpose, besides establishing a system
of waterworks large enough for the
mills and a town of 10,000 population.

Shelby, N. C. Mr. J. C. Smith, for-
merly secretary and treasurer of the
Newton Cotton Mill, and a successful
cotton mill man, has bought a large
interest in the Shelby Cotton Mill,
and has also been elected secretary
and treasurer of said mill. He will
enter upon his duties November 1st.

Alexander City, Ala. It is rumored
that Messrs. C. E. Riley & Co., of Bos-
ton, Mass., will arrange to equip and
operate the Alexander City Cotton
Mill. This plant has a capacity of
15,000 spindles, and has never been
equipped with machinery. It was
built several years ago.

Tarboro, N. C. E. V. Zoeller, treas-
urer of the Tarboro Cotton Mills, an-
nounces that contracts are soon to be
let for the work and machinery for
changing the present systems of heat-
ing and water supply.

Hagan, Ga. A movement is on foot
for a new cotton mill here. It is pro-
posed to organize a company with a
capital of \$200,000 to \$300,000. R. A.
Scott is at the head of the project.

Pitts, Ga. P. G. McDonald, of
Vienna, Ga., is interested in plans for
establishing a cotton mill at Pitts;
\$50,000 to be invested.

Concord, N. C. It is rumored that
the Coleman Mill is to be started up
again with negro operatives. There
seems a disposition to give a second
test to the experiment. There may
have been other causes than the char-
acter of the operatives that led to its
former disaster.

DRESS PRESCRIBED BY LAW.

Strict Regulations Once in Effect in
Switzerland.

Switzerland has a law that no wed-
ding party should have more than 20
guests—ten men friends of the bride-
groom and ten women friends of the
bride. No wedding procession was
permitted to have more than two sing-
ers, two fiddlers and two trumpeters.
Married women were forbidden to
wear silk or decorated hoods, though
maidens might. No woman, whether
married or unmarried, was allowed to
wear any dress in which the opening
for the neck was so large that it did
not lie at least two inches wide upon
the shoulders and the gown must not
be buttoned or laced up in front or at
the side. To restrain the fashion of
long-pointed shoes it was enacted that
no person of either sex should wear a
shoe with a point extending beyond
the foot enough to allow anything to
be inserted in it, nor was any woman
or girl permitted to wear laced shoes.
No man or boy should wear a coat that
did not reach to the knee. Garments
were forbidden to be slashed so as to
show different colors or kinds of ma-
terial, and trousers were required to
be made without stripes and both legs
of the same color. In 1470 one Swiss
council in council assembled enacted
that hereafter no one shall make
points of shoes or boots longer than
one joint of the finger and if any shoe-
maker shall make them longer he shall
be fined 41, as also the person wear-
ing them.

tral railroad near Ennis early Satur-
day. Brakeman Glenn was killed out-
right and Engineer Davenport and
Fireman Trailer probably were fatally
injured. A passenger train running
at moderate speed, was derailed by the
explosion of the locomotive boiler. Seven
coaches left the track and the road
bed was torn up for several hundred
yards. None of the passengers was
seriously injured.

Life is short at best—and perhaps
that is the best thing that can be
said about it. So. 45.

ECZEMA FOR TWO YEARS

Little Girl's Awful Suffering With Terrible
Skin Humors—Sleepless Nights For
Mother—Speedy Cure by Cuticura.

"My little girl had been suffering for
two years from eczema, and during that
time I could not get a night's sleep, as her
suffering was very severe. I had tried
many remedies, but none benefited her, and

Young Fool and the Old.
There's no fool like a young fool.
When fireworks are exploded,
Behold them all, the victims mailed.
With hands and faces burned,
Behold the lamed and killed and maimed.
Their needless sufferings,
There's no fool like the old fool
Who gives a child such toys.
There's no fool like a young fool
In glorious July,
To fire a bomb and lose a thumb
And tear away an eye.
To touch a light to dynamite
And scatter death and noise.
There's no fool like the old fool
Who gives a child such toys.
There's no fool like a young fool
To make the Fourth a crime.

There's no fool like the old fool
Who thinks a child should know.
There's no fool like the young fool
Who smells the powder smoke.

To be such a successful wife, to re-
tain the love and admiration of her
husband, to inspire him to make the
most of himself, should be a woman's
constant study.

If a woman finds that her energies
are flagging, that she gets easily tired,
dark shadows appear under her eyes,
she has backache, headaches, bearing-
down pains, nervousness, whites, irregu-
larities or the blues, she should start
at once to build up her system by a
tonic with specific powers, such as
Lydia E. Pinkham's Vegetable Compound.

Following we publish by request a
letter from a young wife:

"Ever since my child was born I have suf-
fered, as I hope few women ever have, with in-
flammation. Female weakness, bearing-down
pains, backache and worried headaches. It
affected my stomach so I could not enjoy my
meals, and half my time was spent in bed.
What Lydia E. Pinkham's Vegetable Compound
made me a well woman, and I feel so grateful
that I am glad to write and tell you of my
marvelous recovery. It brought me health,
new life and vitality."—Mrs. Bessie Ansley,
611 South 10th Street, Tacoma, Wash.

What Lydia E. Pinkham's Vegetable
Compound did for Mrs. Ansley it will do
for every sick and ailing woman.

If you have symptoms you don't un-
derstand write to Mrs. Pinkham, at
Lynn, Mass. Her advice is free and always
helpful.

Diagnosed Her Case.

A famous American physician was
summoned to the bedside of an elderly
grande dame of distinguished name
and many millions and who is one of
the leaders of American society. The
physician examined her carefully.
Then he said:

"You must get up every morning at
6 o'clock. Take for breakfast a cup
of weak tea and two pieces of dry
toast. From 9 to 11 exercise, either
walking or sweeping or dusting. At
noon lunch on a slice of cold meat,
filtered, uniced water, and stale bread.
Don't sleep in the afternoon; exer-
cise again. For dinner take nothing
but a little meat, a vegetable and
toast. No sweets, no wines, no social
dissipation of any kind."

The eyes of the grande dame flash-
ed with fire, as she said:

"But, doctor, do you comprehend my
position? Do you know who I am?"

"Perfectly, madam," answered the
physician. "You are an old woman
with a sour stomach."

Clever Work of Detective.

In examining a jeweler's window in
Oxford street, London, which had
been broken to permit of the extrac-
tion of nine watches, a police sergeant
noticed a little blood on the glass.
Later on in Soho he observed a man
with a cut finger, so he arrested him
and found the stolen watches in his
pocket.

When the wise guy fails he con-
siders the man who succeeds a lucky
fool.

OLD FASHIONED FARE:
Hot Biscuits, Griddle Cakes, Pies and
Puddings.

The food that made the fathers
strong is sometimes unit for the chil-
dren under the new conditions that our
changing civilization is constantly
bringing in. One of Mr. Bryan's neigh-
bors in the great State of Nebraska
writes:

"I was raised in the South, where
hot biscuits, griddle cakes, pies and
puddings are eaten at almost every
meal, and by the time I located in Ne-
braska I found myself a sufferer from
indigestion and its attendant ill-dis-
tress and pains after meals, an almost
constant headache, dull, heavy sleepi-
ness by day and sleeplessness at night,
loss of flesh, impaired memory, etc., etc."
"I was rapidly becoming incapacitated
for business when a valued friend
suggested a change in my diet, the
abandonment of heavy, rich stuff and
the use of Grape-Nuts food. I fol-
lowed the good advice and shall always
be thankful that I did so."

"Whatever may be the experience
of others, the beneficial effects of the
change were apparent in my case al-
most immediately. My stomach, which
had rejected other food for so long, took
to Grape-Nuts most kindly; in a day
or two my headache was gone, I began
to sleep healthfully and before a week
was out the scales showed that my lost
weight was coming back. My memory
was restored with the renewed vigor
that I felt in body and mind. For three
years now Grape-Nuts food has kept
me in prime condition, and I propose it
shall for the rest of my days."

"And, by the way, my 2½ year old
baby is as fond of Grape-Nuts as I am,
always insists on having it. It keeps
her as healthy and hearty as they make
them." Name given by Postum Co.,
Battle Creek, Mich. There's a reason.

Shelby, N. C. Mr. J. C. Smith, for-
merly secretary and treasurer of the
Newton Cotton Mill, and a successful
cotton mill man, has bought a large
interest in the Shelby Cotton Mill,
and has also been elected secretary
and treasurer of said mill. He will
enter upon his duties November 1st.

Alexander City, Ala. It is rumored
that Messrs. C. E. Riley & Co., of Bos-
ton, Mass., will arrange to equip and
operate the Alexander City Cotton
Mill. This plant has a capacity of
15,000 spindles, and has never been
equipped with machinery. It was
built several years ago.

Tarboro, N. C. E. V. Zoeller, treas-
urer of the Tarboro Cotton Mills, an-
nounces that contracts are soon to be
let for the work and machinery for
changing the present systems of heat-
ing and water supply.

Hagan, Ga. A movement is on foot
for a new cotton mill here. It is pro-
posed to organize a company with a
capital of \$200,000 to \$300,000. R. A.
Scott is at the head of the project.

Pitts, Ga. P. G. McDonald, of
Vienna, Ga., is interested in plans for
establishing a cotton mill at Pitts;
\$50,000 to be invested.

Concord, N. C. It is rumored that
the Coleman Mill is to be started up
again with negro operatives. There
seems a disposition to give a second
test to the experiment. There may
have been other causes than the
character of the operatives that led to its
former disaster.

TEXTILE NEWS OF INTEREST

Notes of Southern Cotton Mills and
Other Manufacturing Enterprises.

Denison, Texas. The Denison Cot-
ton Mill Co., will start operations at
an early day, making 8s to 14s 2 ply
yarn in skeins. The capital stock is
\$150,000. W. B. Munson is president.
W. R. Munson, treasurer, T. L. Clark,
superintendent. Plant is equipped
with 8,000 ring and 4,000 twister spin-
dles and operated by steam. This
plant formerly known as the Ameri-
can Spinning Co., will soon install
considerable new machinery in the
mill.

Walterboro, S. C. The town of
Walterboro, S. C., is to have a new
cotton mill with a capital of \$100,000.
The Walterboro Cotton Mills is the
name of the new corporation. The
incorporators are: John F. Lucas, of
Walterboro; Julian Mitchell, Jr., and
Walter Pringle of Charleston.

Columbia, S. C. The Capital City
mills, Richland cotton mills and Gran-
by cotton mills held their stockholders
meetings Oct. 19. Since their reorgani-
zation some time ago, Mr. Lewis
W. Parker has been manager of the
concerns, and during the short time a
very showing has been made. Mr.
Parker was re-elected president of the
three mills.

Greensboro, N. C. Two hundred ad-
ditional looms are to be installed in
the White Oak Cotton Mills at once,
making the total in operation 800.
When the full capacity is reached
there will be three thousand. The
Pomona Cotton Company has awarded
contracts for thirty thousand tenement
houses to have from four to nine
rooms each. The engine, boilers and
part of the machinery for the mill is
expected next month.

Waxahatchie, Texas. At the an-
nual meeting of the directors of the
Waxahatchie Mills Waxahatchie, Tex.
held recently a dividend of 10 per cent,
payable January 1st, 1906, was de-
clared and instructions were issued
for the enlargement of the plant as
soon as the directors consider it nec-
essary. The mill is running 5,000 spin-
dles and 150 looms on duck and
towels.

Graham, N. C. Incorporation papers
have been issued at Raleigh, N. C.,
for the Leota Cotton Mills Company,
of this place. The capital stock being
\$125,000 and the purpose to establish
a cotton manufacturing plant, details
of which are now under consideration.
James V. Pomeroy, William V. White
and J. H. White, of Graham are the
incorporators.

Rome, Ga. The Anchor Mills have
purchased 20 acres of land as a site
for their new buildings, and will begin
construction work soon. The com-
pany has decided to expend \$100,000
and install 700,000 spindles; present
equipment 5,700 spindles and 70 looms.

Fayetteville, Tenn. A company has
been organized to manufacture cotton
goods at Fayetteville, Tenn. The
company—the Fayetteville Mill Com-
pany—has a capital stock of \$10,000.
The incorporators are H. K. Holman,
A. M. McLaughlin, J. H. Rees, J. H.
Harms and C. T. Harms.

Wilson, N. C. The Wilson Cotton
Mills have declared a dividend of 7 per
cent on \$25,000 worth of preferred
stock and 8 per cent on \$75,000 common
stock. This company operates 6,080
ring spindles on the manufacture of
warps and yarns.

Albemarle, N. C. The Euford Mfg.
Co., Albemarle, N. C., contemplates
doubling the capacity of their mills
and installing additional looms.

Huntsville, Ala. The Merrimack
Manufacturing Co., of Huntsville,
Ala., it is reported will soon begin
the erection of a third mill in Hunts-
ville. The original plans of the com-
pany provide for a series of eight
mills and a bleachery and the com-
pany bought enough land for that
purpose, besides establishing a system
of waterworks large enough for the
mills and a town of 10,000 population.

Engine Boiler Exploded.

Dallas, Texas, Special—A wreck oc-
curred on the Hudson and Texas Cen-
tral railroad near Ennis early Satur-
day. Brakeman Glenn was killed out-
right and Engineer Davenport and
Fireman Trailer probably were fatally
injured. A passenger train running
at moderate speed, was derailed by the
explosion of the locomotive boiler. Seven
coaches left the track and the road
bed was torn up for several hundred
yards. None of the passengers was
seriously injured.

groom and ten women friends of the
bride. No wedding procession was
permitted to have more than two sgar-
rers, two fiddlers and two trumpeters.
Married women were forbidden to
wear silk or decorated hoods, though
maiden might. No woman, whether
married or unmarried, was allowed to
wear any dress in which the opening
for the neck was so large that it did
not lie at least two inches wide upon
the shoulders and the gown must not
be buttoned or laced up in front or at
the side. To restrain the fashion of
long-pointed shoes it was enacted that
no person of either sex should wear a
shoe with a point extending beyond
the foot enough to allow anything to
be inserted in it, nor was any woman
or girl permitted to wear laced shoes.
No man or boy should wear a coat that
did not reach to the knee. Garments
were forbidden to be slashed so as to
show different colors or kinds of ma-
terial, and trousers were required to
be made without stripes and both legs
of the same color. In 1470 a Swiss
canton in council assembled enacted
that hereafter no one shall make
points of shoes or boots longer than
one joint of the finger and if any shoe-
maker shall make them longer he shall
be fined 21, as also the person wear-
ing them.

Cures Rheumatism and Catarrh—Medicine
Sent Free.

These two diseases are the result of
an awful poisoned condition of the blood.
If you have aching joints and back, shoulder
blades, bone pains, crippled hands, legs or
feet, swollen muscles, shifting, sharp,
biting pains, and that tired, discouraged
feeling of rheumatism, or the hawking,
spitting, blurred eyesight, deafness, sick
stomach, headache, noises in the head, mu-
cous throat discharges, decaying teeth,
bad breath, belching gas of catarrh, take
Botanic Blood Balm (B. B. B.). It kills the
poison which causes these awful
symptoms, giving a pure, healthy blood
supply to the joints and mucous mem-
branes, and makes a perfect cure of the
rheumatism or fouled catarrh.
Cures where all else fails. Blood Balm
(B. B. B.) is composed of pure Botanic In-
gredients, gives relief to Croup, Croup,
Coughs, Colds, Croup and Consumption,
all throat and lung troubles. At drug-
gists, 25c, 50c, and \$1.00 per bottle.

NOT HIS TIME TO DIE.

Railroad Man Lives to Tell of Miracu-
lous Escape.

John Flockhart, of South Chicago,
was run over by a switch engine and
five cars in the local yards of the Big
Four railway the other day, and still
lives. Flockhart, who was formerly
employed as a Big Four switchman,
came to Kankakee on a picnic ex-
cursion. In the afternoon he was
riding on the front end of a switch
engine with two former fellow em-
ployees, when his hat blew off. In try-
ing to catch it he lost his balance and
fell directly in front of the engine.
The engine and five cars in the train
passed over him. The crew hurried
back, expecting to find the mangled
corpses of their companion, but in-
stead he was endeavoring to raise
himself to a sitting posture. Exami-
nation showed that his injuries consisted
of a crushed right arm and a few cuts
about the head, while the heel of his
right foot had been torn off. The in-
jured man was removed to the hos-
pital. Local railroad men are un-
able to account for Flockhart's escape
from instant death, as the firebox of
the engine reaches almost to the
ground. It is thought that after his
arm was crushed by the engine he
was rolled into the center of the
tracks, clear of the wheels of the cars
that followed.

\$3.50 & \$3.00 SHOES

W. L. Douglas \$4.00 Gilt Edge Line
cannot be equaled at any price.

W. L. Douglas \$3.50 shoes have by their ex-
cellent style, easy fitting, and superior wear-
ing qualities, achieved the largest sale of any \$3.50
shoe in the world. They are just as good as
those that cost you \$5.00 to \$7.00—the only
difference is the price. If I could take you into
my factory at Brockton, Mass., the largest in
the world under one roof making men's shoes,
and show you the care with which every
pair of Douglas shoes is made, you would realize
why W. L. Douglas \$3.50 shoes are the best
shoes produced in the world.

If I could show you the difference between the
shoes made in my factory and those of other
makers, you would understand why Douglas
\$3.50 shoes cost more to make, why they last
longer, and are of greater intrinsic value than any other \$3.50
shoes on the market today.
